EDUCATION

SRM Institute of Science and Technology, B.Tech - CSE Jun 2018 – May 2022
Chennai, India

SKILLS

Web Development (ReactJS, NextJS, NodeJS, MongoDB, MySQL HTML, CSS, Bootstrap),
Scripting & Programming Languages (JavaScript, TypeScript, C++, C, Python)

PROFESSIONAL EXPERIENCE

Software Development Intern, Dezigndia Jan 2021 – Apr 2021
Worked on a product called Mediseen, I worked on the backend using **NodeJS, Express, and MongoDB** to build fast and secure backend APIs.

Full Stack Developer, SRM CARE Jun 2019 – Mar 2021
Made various questions on C++ and python with test cases. Got promoted and worked on a tool provided by SRM CARE to provide handy syllabus access on **MEAN/MERN** stack
Chennai, India

Backend Development Intern, Zoob Labs Sep 2020 – Dec 2020
Developed APIs using NodeJS, Express, and MongoDB for a social app where people can buy gifts for their loved ones.

Software Development Intern, Hashbianry LLP Apr 2020 – Jul 2020
Worked on Pricinger, a **browser extension** that provides an array of features like browser switcher, OS Switcher, proxy, and many more which blocks **dynamic pricing** and hides your identity. Worked on **HTML,CSS and JavaScript**

Web Development Intern, Inception Wave Sep 2019 – Dec 2019
I worked on Angular 8 to develop responsive websites. Made two websites during my internship. Worked on components, APIs and Git
Chennai, India

COLLEGE ORGANIZATIONS

SRMKZILLA, President May 2021 – present
Leading the official Mozilla Campus Club promoting the power of Open Source in and around the campus of SRMIST, Chennai.
Chennai, India

SRMKZILLA, Technical Lead Jul 2020 – Apr 2021
Building awesome products along with a team of awesome developers. At SRMKZILLA, we build products that a few imagine. Launched some awesome products ranging from web apps to discord bots.
Chennai, India

SRM Indian Energy Conference, Technical Lead Jan 2020 – Nov 2020
I was responsible for leading the technical team for the 5th edition of SRMIEC 2020, where we came up with a beautiful website and an admin panel.
Chennai, India

PROJECTS

Recruitments, All hiring process at a place!

Built Recruitments to wow people! A state-of-the-art platform where students can apply for a seat in SRMKZILLA. I was working on the backend part for this project

Jack, A bot of all trades

Jack, a bot that handles the SRMKZILLA discord server well. He can generate certificates for people who attend events, maintaining a log of activities on the server!

MOZOFEST'21 Portal, March Soon!

On a single click, there's so much happening at the back. Integrated with Jack to keep users a smooth online fest experience. Got amazing feedback

Clinilink, Simplify curing by connecting

What if we merge the superpower of our excellent medical staff and their community. This is exactly what we are aiming for. Inspired by stack overflow.

KZILLA.XYZ, A simple, blazing fast URL Shrinker

A URL Shrinker built with an engineering mind, putting in all the love and engineering mind to provide a fast smooth experience to you.

AWARDS

Winner, Tech Ingenium Hackathon

Runner Up, Reva Hacks 2020

Top 10 teams, SIH Internal Hackathon

IBM Special Track Winner, HackOn 1.0 Hackathon
